EXPERIENCE

November 2023 - February 2024
On My Way (OMW) - Project
Travel Planning Web App | React, JavaScript, Flask, PostgreSQL

- Built a full-stack travel planning platform enabling users to create trips, manage excursions, and save travel plans
- Developed responsive React UI components and connected front-end flows to Flask API endpoints
- Implemented secure authentication using Bcrypt and validated endpoints and data flows using Postman

January 2022 - January 2026
Freelance QA Tester
Various Clients

- Tested web interfaces for usability, layout consistency, and functional issues across user flows
- Reported bugs and tracked fixes in Jira, partnering with developers to verify resolutions
- Documented detailed test results and reproduction steps to support faster debugging and clean releases
- Applied a user-first mindset to improve clarity, navigation, and overall experience

June 2021 - December 2023
UX Designer
Freelance

- Designed 20+ interactive prototypes in Figma, translating concepts into clear, user-friendly interfaces
- Conducted usability testing and research, synthesizing findings into design improvements
- Delivered polished visual systems (logos, style tiles, layout standards) to support consistent UI experiences

EDUCATION

February 2024
Software Engineering Fellowship
Hackbright Academy

December 2022
UX/UI Designer Fellowship
Design Lab Academy
